

GOVERNMENT CAPABILITY STATEMENT

nextScan, a division of Digital Check Corporation, is a world leader in cutting edge technology for the micrographics conversion and document management industry. Incorporated in 2002, nextScan was established to give the microfilm and microfiche conversion market a high performance alternative to existing technologies. nextScan's innovative patented products are designed and built with simplicity and functionality to increase user production and lower overall costs for scanning film and fiche.

Designed with cutting edge components – the latest in camera, lighting, image correction, and NextStar PLUS, nextScan's revolutionary "ribbon scanning" software, nextScan products provide a full conversion solution that far exceeds the speed, functionality and return on investment when compared to other scanners in the market. With over 80 years of combined Micrographics Development experience, nextScan's lead engineers are proud to bring you the next generation of high performance Scanners and Software Solutions.
